

**811. ACTD REPORTING.** Upon conclusion of an ACTD's demonstration, a letter of observation signed by the cognizant ACOS will be produced and forwarded to the sponsoring CINC. The CINC may then use our letter to assist in preparing the CINC's assessment of military utility. Our observations will state the planned and observed outcomes of the demonstration, but will make no assessment of COIs/MOPs/MOEs or determination of effectiveness/suitability. Our letter is not an operational assessment. However, it can incorporate requirements set forth in an approved ORD. Of special importance is the summary paragraph, which details the conditions and limitations under which the data were taken.
